

SPLIETHOFF'S B.V.

Customer Needs:

A high corrosion and abrasion resistant coating system. Easy to repair and to maintain while at Sea.

The Problem:

On board of the MV-Singelgracht, the Tank-top is heavy corroded, dry docking to correct the problem is not an option at the moment

The solution:

After cleaning the surfaces using handtool acc. to St.2 - St.3, the treated areas were coated to full satisfaction with a Unica System.

- | | | |
|------------|----------------------|-----------|
| 1. Primer | Uni-Micazinc MC Grey | DFT 75 µm |
| 2. Topcoat | Uni-Micazinc MC Grey | DFT 75 µm |

Now after 6 months the Uni-Coat systems are used as the standard maintenance coatings
